

# Release Notes

## Class/Camp Edit Instructors Updates

### General Overview

The purpose of this task is to change the way Instructors are displayed when editing the Instructor list on classes and camps.

Currently, if a staff member is marked Inactive and they are still attached as an Instructor to a class or camp, the only way to see this is by viewing the staff member's Inactive profile or to run a Roll Sheet with the option to show "Inactive Instructors" (for classes).

This update allows the system to still display Inactive instructors on the Classes and Camps pages and the "Instructor" tab of the class or camp when it is being edited **if they are still attached as an instructor to the class/camp.**

### How will this benefit me?

This update will make it easier to see at a glance when an Inactive instructor is still attached to a class or camp.

### Where will I see these changes?

These changes will affect the Classes and Camps pages on the Office Portal and the "Instructors" tab of classes and camps. Any Inactive instructors will be shown and indicated with the word "(Inactive)" in italicized red text.

## What is being changed/added?

This update allows the system to still display Inactive instructors on the Classes and Camps pages and the "Instructor" tab of the class or camp when it is being edited **if they are still attached as an instructor to the class/camp.**

## How does this work with existing settings?

This update only adjusts system behavior. It does not add any new settings or remove any existing settings.
