

# Release Notes

## First Enrollment Icon Updates

### General Overview

The purpose of this task is to improve the current "First Enrollment" icon to differentiate between "First Day in Class" and "First Enrollment In Session." (Historically, the same icon has been used in both circumstances.)

### How will this benefit me?

This change will help your staff better identify students who are truly attending class for the first time by comparing it to students who may be returning to class for a new Session.

### Where will I see these changes?

These changes will affect the Office Portal, Staff Portal, and various reports (such as Roll Sheets and the "First Enrollments Report").

### What is being changed/added?

We are adding separate icons for "First Day in Class" and "First Day in Session" and improving the system logic so these are properly displayed in appropriate situations.

Currently, the settings for the "New Enrollments Icon" state that they only apply to the Staff Portal or Reports, although this is not the case. To clarify matters, we are adding an option to "Show New Enrollment Icon In Office Portal." Any "Show New Enrollment Icon" options that are

2

selected will be applied to any of the Portal options that are selected (Staff Portal/Office Portal/Reports). This new option will be enabled by default to maintain current behavior.

## How does this work with existing settings?

This update adds a new setting to "Show New Enrollment Icon In Office Portal" under SETTINGS > SETUP > STUDENT SETTINGS > STUDENT OPTIONS. This setting will be enabled by default to maintain current behavior.
