

Release Notes

Updates to "Enrollment Type" Filter on Family/Student Reports

General Overview

Currently, the "Enrollment Type" filter on multiple family/student reports defaults to using "OR" when both the "Include Class Enrollments" and "Include Camp Enrollments" filters are selected. This means the system will find families/students with "Include Class Enrollments" OR "Include Camp Enrollments", but not both.

To allow for better control of which families/students will appear in the results, we are updating this report filter to allow you to choose ANY or ALL when both options are selected.

How will this benefit me?

This will allow you to better define what you are expecting to see in the report results by choosing to include families/students with ONLY class enrollments, ONLY camp enrollments, either class enrollments OR camp enrollments (if ANY is selected), or both class enrollments AND camp enrollments (if ALL is selected).

Where will I see these changes?

These changes will affect multiple Family/Student reports:

- Family List Report (FAM-1)
- Family Phonebook Report (FAM-2)
- Family Email List (FAM-3)
- Families Without Email List (FAM-4)
- Families With Multiple Students Report (FAM-5)

- Family List By Postal/Zip Code Report (FAM-6)
- Enrollment by Postal/Zip Code Report (FAM-7)
- Family Notes Report (FAM-8)
- Family Mailing Labels Report (FAM-10)
- Family Policy Agreement Report (FAM-11)
- Student List Report (STU-1)
- Student Phonebook Report (STU-2)
- Student Birthday List Report (STU-3)
- Student Anniversary List Report (STU-4)
- Student Insurable Age Groups Report (STU-5)
- Student Notes Report (STU-6)

What is being changed/added?

We are updating this report filter to allow you to choose ANY or ALL when both the "Include Class Enrollments" and "Include Class Enrollments" options are selected.
